"The strategic investment in the portfolio company, Crystal Financial, provides us with a new source of investment income from an asset that carries a highly attractive and diversified senior secured risk-return profile. Post the funding of Crystal Financial and our equity raise in January, we have over \$400 million of credit capacity to deploy in attractive investment opportunities."

Portfolio and Investment Activity

During the year ended December 31, 2012, we originated approximately \$496.8 million of investments in 9 new portfolio companies, and approximately \$114.8 million was invested in 8 existing portfolio companies. Investments sold or prepaid during the fiscal year ended December 31, 2012 totaled \$325.2 million.

At December 31, 2012, our portfolio consisted of 40 portfolio companies and was invested 33.7% in senior secured loans, 19.7% in Crystal Financial, 32.0% in subordinated debt, 10.9% in preferred equity and 3.7% in non-Crystal Financial common equity and warrants, measured at fair value. Considering Crystal Financial's underlying portfolio, approximately 57% of the total fair value is invested in secured assets.

The weighted average yield on our combined debt and preferred investment portfolio at fair value was 14.2% at December 31, 2012.

On a cost basis, 39.6% or \$532.7 million of our income-producing investment portfolio is held in floating rate securities and 60.4% or \$811.3 million are fixed rate securities. Considering Crystal Financial's underlying portfolio, our floating rate exposure is approximately 45%.

Our adviser Solar Capital Partners has invested approximately \$3.4 billion in more than 120 different portfolio companies since it was founded in 2006. Over the same period, Solar Capital Partners completed transactions with more than 90 different financial sponsors.

Recent Portfolio Developments

On December 28, 2012, we invested \$275 million to acquire substantially all of the outstanding equity of Crystal Financial, a commercial finance company focused on providing asset-based and other secured financing solutions. At the time of closing, Crystal Financial had 25 loans outstanding to 22 different borrowers. All loans were floating rate with the largest loan outstanding totaling \$40.3 million. The average loan size was \$18.1 million and none of the loans were on non-accrual status. Crystal Financial's \$250 million credit facility, which is non-recourse to Solar Capital, had approximately \$143 million of borrowings outstanding at December 28, 2012, and the company had approximately \$130 million of capital available to invest.

Results of Operations for the Twelve Months Ended December 31, 2012 compared to the Twelve Months Ended December 31, 2011.

Investment Income

For the fiscal years ended December 31, 2012 and 2011, gross investment income totaled \$153.3 million and \$138.9 million, respectively. The increase in gross investment income for the fiscal year was primarily due to an increase in the average size of the income-producing portfolio as compared to the previous fiscal year.

Expenses

Net expenses totaled \$71.3 million and \$57.0 million, respectively, for the fiscal years ended December 31, 2012 and 2011. The increase in net expenses from 2011 to 2012 was primarily due to an increase in interest and other debt related expenses, including \$7.3 million of expenses related to the replacement of our existing revolving credit facility with a new and expanded credit facility and expenses related to issuing our senior secured notes during 2012.

Net Investment Income

The Company's net investment income totaled \$81.9 million and \$81.9 million, or \$2.20 and \$2.25 on a per average share basis, respectively, for the fiscal years ended December 31, 2012 and 2011.

Net Realized Gains (Losses) on Investments, Foreign Currencies and Derivatives

The Company had investment sales and prepayments totaling approximately \$325.2 million and \$338.1 million, respectively, for the fiscal years ended December 31, 2012 and 2011. Net realized losses for the fiscal years ended December 31, 2012 and 2011 were \$(32.5) million and \$(2.4) million, respectively. Net realized losses incurred during 2012 were primarily related to the restructuring of our investment in DSW Group, Inc. which reversed out previously recognized unrealized depreciation as well as the realization of previously recognized unrealized foreign exchange losses on our GBP denominated investment in Weetabix that was repaid in full at par during the fiscal year. As our foreign exchange risk is generally hedged, foreign currency gains were realized in prior periods.

Net Unrealized Appreciation (Depreciation) on Investments, Foreign Currencies and Derivatives

For the fiscal years ended December 31, 2012 and 2011, the net change in unrealized appreciation (depreciation) on the Company's investments, derivatives and foreign currencies totaled \$66.4 million and (\$18.2) million, respectively. For the fiscal year ended December 31, 2012, net appreciation was driven by general market improvements, modest yield tightening as well as the reversal of unrealized depreciation on our investment in DSW Group, Inc. in connection with our investment having been restructured during fiscal 2012.

Net Increase (Decrease) in Net Assets Resulting From Operations

For the fiscal years ended December 31, 2012 and 2011, the Company had a net increase in net assets resulting from operations of \$115.8 million and \$61.3 million, respectively. For the years ended December 31, 2012 and 2011, earnings per average share were \$3.11 and \$1.68, respectively.

Liquidity and Capital Resources

On November 16, 2012, we issued \$100 million in aggregate principal amount of 6.75% unsecured senior notes due 2042 for net proceeds of \$96.9 million.

As of December 31, 2012, we had a total of \$310.5 million of unused borrowing capacity under our revolving credit facilities, subject to borrowing base limits.

On January 11, 2013, the Company closed on a follow-on public equity offering of 6.3 million shares of common stock at \$24.40 per share raising approximately \$146.9 million in net proceeds.
